Getting started with GitHub

A beginner's guide.
(There's <u>no code</u> in this slide deck!)

Presented by Quinn Supplee

What is GitHub?

- GitHub is a code hosting platform for version control and collaboration.

- It lets you collaborate with others down the hall, or across the world.

- But you can use it for *a lot more* than just software code.

- Many technical recruiters and hiring managers are in the habit of <u>reviewing applicants' GitHub profiles</u> when making a hiring decision.
